Bemcot® M3 Wipe

100% filament rayon nonwoven quarter-fold wipe

Description

The Bemcot M3 Wipe is an entangled nonwoven fabric with a 100% filament rayon composition. Because rayon is completely cellulosic, this is an extremely absorbent wipe. Soft, low-linting, and heat resistant, these wipes are designed for cleaning high temperature process equipment, diffusion furnaces, and sensitive electronic equipment in cleanroom environments. The wipe is quarterfolded into a 5" x 5" (12.7 cm x 12.7 cm) which is sized to fit the hand. This wipe is used extensively in the compact disk and magnetic tape industries.
